

September 25, 2023

It is with immense gratitude and the utmost confidence that we, the Board of Directors and members of the North Canyon Condos Homeowners Association, extend our wholehearted endorsement of Adjusters International.

On November 28th, 2019, our community suffered an unfortunate and devastating fire that affected all 48 units of our building. In what were undeniably challenging and trying times, Adjusters International stepped in as a beacon of hope and professionalism in managing the disaster and our recovery.

From the outset, their expert team including Blair Hanson, Joshua Scott, Darrell Kuykendall, Chris Glenister and Tyler Moore exhibited a level of dedication and mastery that proved indispensable to our community's recovery journey. Not only did they guide us through the intricacies of the fire claim, but their support and services became even more invaluable when the global pandemic ensued, adding a layer of complexity to an already strenuous situation.

One of the most commendable achievements of Adjusters International was their capability to negotiate and advocate on our behalf. Initially, our insurance company presented us with an offer of \$2.5 million, a sum that would have been insufficient to restore North Canyon Condos to its previous standard. However, through Adjusters International's diligent efforts and unmatched expertise, they successfully negotiated an amount of nearly \$8 million. This not only allowed for the full restoration of our property but also ensured that the needs and concerns of every single one of our unit owners were adequately addressed.

In times of crisis, having a reliable, efficient, and compassionate partner can make all the difference. For North Canyon Condos, Adjusters International was that partner. They went above and beyond, ensuring that our community could rebuild and move forward with our lives with confidence and security.

We wholeheartedly recommend Adjusters International to any organization or individual in need of claims adjustment services. Their work ethic, expertise, and dedication to their clients are truly unparalleled.
